

To our Valued Customers & Clients,

Last year, 2018 brought many changes to Redding Auction Service. The largest change we experienced was after 45+ years, founder and owner, C. David Redding made the hard decision to step back from daily operations here at Redding Auction Service. Our father built Redding Auction Service from scratch, which took hard work, long hours and dedication. C. David Redding's desire to be an auctioneer and having his own auction facility to conduct auctions and having a hard working family (wife and 4 children) to support him, has made Redding Auction Service what it is today. We here at Redding Auction Service take a lot of pride in being a family owned and operated auction company. As of October 1<sup>st</sup>, 2018, my wife, Michelle and I purchased the business from my parents. Our goal is to keep the family business going for another 45+ years and hopefully the next generation will be ready to step in. My father started the business the year I was born, therefore; I have been around the auction business my entire life. I do not know anything else. Our family is excited to embark on the next chapter.

The first change that we made was incorporating the company to Redding Auction Service, Inc. As I am writing this, I am pleased to announce that we are now a NFA Title II (Class 3) auction company, one of very few in the state of Pennsylvania! We look forward to being able to work with gun enthusiast and collectors in that field of collecting. Another big change that we made was updating the heating and air conditioning in our facility. We have used the new air conditioning system at our summer sales this year and it has been a great success. The hot, humid days with all of the doors hanging open to try and increase air flow are over!

We are also in the final stages of completing our second auction gallery, which adjoins our current auction room. This will bring a great deal of additional space which will allow us to conduct more auctions, flexibility for marketing and advertising and plainly more space for our customers. This new auction gallery will also be air-conditioned and heated, have LED lighting, state of art speaker/PA system and more! We look forward to the endless opportunities that this new space will bring to Redding Auction Service, Inc. With time, there will be many more exciting changes to come. Small steps will lead to large steps.

We are excited to continue the auction business and continue to meet and work with valued people like you. We take a lot of pride in being a family owned and operated business that puts our customers and clients first. We will continue on with the values that our father installed in us at a very young age. Redding

Auction Service, Inc., will remain a NO BUYERS PREMIUM auction facility.

Business operations will continue as normal.

My brother Doug and I will be continuing the family business with the help of my family, my wife Michelle, daughter Brianna and son Cole. Many of you have got the opportunity to watch Brianna and Cole grow up as I have into fine hardworking kids that Michelle and I are so proud of. Our father will be able to spend more time working on the farm where we all know he enjoys being the most. Unfortunately, Parkinson's has taken a stronger hold on our mother, however; she is still able to be in the comfort of her home. My sister Crissy is in her element now as the Treasurer of Adams County. My brother Brian, who most of you may not know, helps out when he is not flying as a helicopter pilot. Our family has taken great pride, and will continue to take great pride in serving our customers, both buyers and sellers as we have in the past. We look forward to seeing what the next 45 years will bring.

From my family to your family we thank you,

Pat Redding
